**Répertoire
des
programmes de développement
de la petite enfance
et
du jeune enfant
de la
province de l'Ontario**

10^e édition, 2015

Ce répertoire est une révision de l'édition de 2008. Le Répertoire est publié des Services de développement de la petite enfance et du jeune enfant dans le but d'aider les professionnels à acheminer les clients vers des programmes appropriés. L'énoncé de mission, le but et les objectifs offrent un survol des services de développement de la petite enfance et du jeune enfant.

Les programmes de développement de la petite enfance et du jeune enfant à travers la province sont financés principalement par le Ministère des services l'enfance et à la jeunesse.

Cette édition comprend en annexe une liste d'autres programmes de développement de l'enfant qui offrent des services à des clientèles particulières.

Il ne s'agit pas d'une liste exhaustive des services disponibles aux familles qui ont des enfants de moins de 6 ans. Pour d'autres types de services, vous pouvez vous adresser au programme de développement de la petite enfance et du jeune enfant de votre région qui sera en mesure de vous aider à entrer en contact avec des services particuliers.

Une version électronique du Répertoire est disponible sur le site web de l'AODJE à : www.oaicd.ca . Le répertoire du site web sera mis à jour lorsque des modifications sont envoyées à OAICD au eboychyn@oaicd.ca

**Directory
Of
Infant and Child
Development Services
in the
Province of Ontario

10th Edition, 2015**

This Directory is a revision of the 2008 edition. The Directory is published by the Ontario Association for Infant and Child Development to assist professionals in making referrals to appropriate programs. The Mission Statement, Purpose and Objectives provide an overview of Infant and Child Development Services.

The Infant and Child Development Programs across the province are funded primarily by The Ministry of Child and Youth Services. The directory appendix lists additional programs that provide service to special infant populations.

Additional services for families and children birth to six years may be available in your area. The Infant and Child Development Services will be able to assist in making connections and coordinating services.

An electronic version of the most current directory can be found on the OAICD website at www.oaicd.ca and will be updated as changes are sent to OAICD at eboychyn@oaicd.ca

Comment utiliser le répertoire

Les programmes et les descriptions sont présentés par ordre alphabétique, selon l'emplacement du bureau principal.

En utilisant l'INDEX à partir de le page 34:

1. vous pouvez trouver le programme par son nom (si le programme a un nom particulier) p. ex. Infant and Child Development Services **Kingston** – page 14
ou
2. vous pouvez trouver un programme aux fins de renvoi après avoir déterminé la ville la plus près du domicile de la famille - p. ex. Napanee - page 14, code Q

Remarque: De nombreux programmes offrent des services aux régions rurales et urbaines.

Consulter l'**ANNEXE** au page 30 pour d'autres programmes et descriptions.

Un lien pour les **centres de traitement** en Ontario se trouve au page 30.

Une liste des **hôpitaux pédiatriques** en Ontario se trouve à la page 31.

Les liens pour les programmes pour enfants à travers le Canada mais qui ne sont pas situés en Ontario se trouvent aux pages 32-33.

How to use this Directory

Programs and their descriptions are arranged alphabetically according to the locations of their main offices.

Using the INDEX starting on Page 34:

1. you can locate the program by its title (if the program has a specific name) e.g. Infant and Child Development Services Kingston by looking for **Kingston** - page 14
or
2. you can locate a program for referral purposes after identifying the town/city nearest the family's home e.g. Napanee Code Q, on Page 14

Note: Many programs serve both rural and urban areas.

The **INDEX** will give you both a **code** and a **page number**, with the exception of those listed in the Appendix, e.g. Napanee - Code Q, Page 14.

Consult the **APPENDIX** Page **30** for programs providing Specialized Services.

A link for the **Children's Rehabilitation (Treatment) Centres** in Ontario is found on Page 30.

A list of **Paediatric Hospitals** in Ontario is found on Page 31.

Links to infant development (early intervention) programs across Canada that are outside Ontario are found on Pages 32-33.

Énoncé de mission

Reconnaissant que la petite enfance est une période importante pour le développement sain d'une personne l'Association ontarienne pour le développement du jeune enfant s'est donnée les objectifs suivants:

- développer, promouvoir et appuyer des politiques, des services et de la recherche dans le domaine du développement de la petite enfance et du jeune enfant dans la province de l'Ontario;
- faire circuler l'information entre les professionnels qui travaillent dans le domaine du développement de la petite enfance et du jeune enfant de 0 à 6 ans;
- promouvoir l'éducation continue de ses membres et de la communauté en général;
- s'associer avec d'autres organismes qui ont des objectifs semblables.

Buts et objectifs des programmes pour nouveau-nés et jeunes enfants et leurs familles

Les programmes sont conçus pour offrir des services aux nouveau-nés et aux familles et aux jeunes enfants qui présentent un risque de retard du développement et leurs familles. Les populations sont ciblées en fonction du risque que présente l'enfant:

- risque établi (trouble diagnostiqué);
- risque biologique (troubles précoces qui peuvent avoir un effet sur le développement de l'enfant);
- risque psychosocial (vulnérabilités qui peuvent être amplifiées par des facteurs environnementaux) qui accompagne un risque établi ou biologique.

Étant donné qu'il existe des différences de services selon les différences communautaires; veuillez contacter directement les programmes en ce qui attrait à leurs mode de service.

En 2007 l'association (AODJE) a suggéré un changement de nom à "Infant and Child Development Services (région géographique)" au MSEJ. Beaucoup des programmes ont changé leurs noms pour plus d'uniformité à travers la province.

Mission Statement

Recognizing that infancy is a crucial period in the healthy development of an individual, the Ontario Association for Infant and Child Development exists primarily to:

- develop, promote and support policies, services and research in the field of infant and child development in the Province of Ontario
- share information among professionals working in the field of infant and child development to age 6
- promote ongoing education for members and the community at large, and
- affiliate with other organizations having the same or similar objectives.

Purposes and objectives of programs for infants and young children and their families

Services are designed to serve infants and young children who are at risk for developmental delay and their families. The target populations include:

- established risk (diagnosed disorder);
- biological risk (early events which may affect an infant's development); and
- psychosocial risk (vulnerabilities which may be magnified by environmental factors) which accompanies established or biological risk

As there are differences in services based on local differences, contact programs directly regarding their particular mode of service delivery.

In 2007, the association (OAICD) recommended a name change to "Infant and Child Development Services (geographical area)" to MCYS. Many programs have changed their names for more consistency across the province.

INFANT AND CHILD DEVELOPMENT SERVICES

Ontario programs are listed alphabetically by city below.
Please note Toronto programs appear grouped together.

A Simcoe County Infant Development Program

c/o Simcoe Community Services
